

SINGAPORE SEMINAR SERIES

Making AI Work For All: Lessons From Singapore

OPENING

Paul Cashin
Director, IMF-STI

MODERATOR

Yoke Wang Tok
Senior Economist,
IMF-STI

PRESENTER

Dr. Leslie Teo
Senior Director, AI Products,
AI Singapore

✓ Abstract

Will we manage AI's challenges better than we managed globalization, or repeat those mistakes? Artificial intelligence is transforming our world faster than any previous technological revolution. Through live demonstrations and lessons from past disruptions, this interactive session reveals why central banks face critical challenges with both the opportunity and the inevitable instability ahead. The question isn't whether AI transforms economies—it's about how we manage transitions for the benefit of our citizens.
